Yesterday's sessions of the Missionary council of this District, W. F. M. S., were largely attended and most instructive from every view point. The routine matters occupied the hours of the morning and afternoon sessions and the night was given over to hearing addresses and a charming letter from Miss Lula Best of Matanzas, Cuba, who is employed as a teacher in that new possession.

Possibly the feature of the day was the address of Rev. Mr. Dixon, who has for many years been a Missionary to Brazil. His talk was along the line of work immediately under his supervision—the people, their habits and customs, the country, its possibilities, climate, etc., and the country's future. He gave a glimpse into the future with its possible outcome. The speaker was entertaining and held the attention of his hearers throughout.

Mrs. Oden, General Secretary of the District, conducted the devotional exercises and the local choir sang delightfully the hymns of Zion.

The next meeting will be held in the fall of 1901 at Flemingsburg.

Now what do you think of that? Always go away from home to hear the news.—Caledonia Independent.

"What do we think of that?" Why, we think that every cased one of the lying "special correspondents" of sensational yellow journals ought to be given a bath of tar and be rubbed down with feathers.

Ships can now go to sea with frozen ammunition. A method of utilizing liquid air on warships has been discovered which will render the explosion of a magazine, even when the ship were in full retreat, almost impossible. The method is to place the liquid air that it will freeze the ammunition to several hundred degrees below zero. In this condition it should not explode, even if a shell should burst in the magazine.

OUR 1900 FALL & WINTER STOCK OF CLOTHING, HATS and SHOES

For many long years learned that our people don't want cheap goods; they want good merchandise at reasonable prices, and that's what they get from us.

We can in truth say that frequently we are more particular in the fit of the
